NEW BEDFORD STREET AND HOUSE DIRECTORY 1910

(Copyright 1910 by W. A. Greenough & Co.)

Giving the location of each street and showing streets running from or across, with the number at intersection, also general direction of each street, map index, st numbers, and names of householders.

The streets of New Bedford, with few exceptions, are laid out north and south, and east and west. Those running north and south number at Union street, and increase each way, with the even numbers on the east and the odd numbers on the west side.

Those running east and west begin to number at the river, and increase westerly, with the even numbers on the south and the odd numbers on the north side. The letter S inclosed by parenthesis, which follows the name of any street, signifies the general bearing of such street from City Hall. Thus School street (S) is south from City Hall.

At its southerly extremity on the river side is a large tract of land belonging to the United States at the extremity of the point is Fort Rodman. Around this point, a distance of about four miles, is a road not surpassed by any public drive in this country. It is called East and West French avenues, commencing at Cove street and follows the shore thence along the western, southern and eastern boundaries of the point, until it terminates in the street where it has its beginning. It is eighty feet wide, smooth and level, and in its course commands a series of views of surpassing loveliness and beauty. The cove, the bay, the river, the shores the islands, the ledges, the light-houses, steamers and sailing craft of every description, the city on the one side, its sister town of Fairhaven on the other and the noble bridge between, constitute a series of views which render a ride or a walk over this road most delightful and attractive. The City Farm and Almshouse is located on Clark's Point.

Liquid Gas Tire Inflator

The Greatest Luxury of Motoring

NO MORE DRUDGERY AT THE HAND OR FOOT PUMP. HITCH THE COUPLING TO THE TIRE-VALVE. TURN A LEVER AND THE PRESSURE OF THE LIQUEFIED GAS IN THE TANK DOES THE REST.

SAVES TIRES

Because its regulator permits you to inflate tires to an exact, uniform tension. By thus equalizing the strain and "trimming" the car, you avoid rim-cutting of tires.

The gauge registers the pressure exactly. When you turn on the gas pressure the needle moves along the numbered dial, and you shut off the pressure the instant the proper figure is reached. Our instruction card gives a pressure table for tires of varying sizes.

CARBON GAS PRESERVES RUBBER

BECAUSE IT CONTAINS ABSOLUTELY NO FREE OXYGEN—THE CORRODING ELEMENT IN AIR AND WATER.

PRICE OF ENTIRE OUTFIT AS SHOWN \$20.00

Tank is shipped filled with four to five pounds of carbon gas liquefied under pressure—enough for from 25 to 50 Inflatings. When empty, we refill at any of our 14 branches for \$2.00.

AS A FIRE EXTINGUISHER

This carbon gas is also an infallible and instantaneous fire extinguisher, putting out the worst gasoline fire almost instantly and saving the damage done to woodwork and upholstery by water or chemicals.

Order one from your dealer. If he does not handle them, Phone, Write or Call at
